DECONTAMINATION/STAGING SITE ASSESSMENT

Facility Name :	Theodore Industrial Park Decon Area	Facility Location ID:	TD01
Assessment Date :	8/25/2010	Incident Name :	BP Spill
Physical Location :	2879 Claudia Lane		
City, State :	Theodore, AL	County :	Mobile

ASSESSMENT INFORMATION

General Site Information and Observations	
1. All waste stored in lined rolloff boxes?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A
2. Rolloff boxes covered after filled (or end of day)?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A
3. Any evidence of oily waste or oily waste waters?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A
4. If yes, was it adequately addressed?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A
5. How many samples were collected?	1
Additional Comments : Oil contaminated PPE from decon operations is collected in 55-gallon drums and then transported to Patriot/WM site 4 (7755 Dauphin Island Parkway). All four decontamination pads were in use at the time of the visit. A sample of the rinsate generated at the pad used for boom decon (Pad 4) was collected as part of the visit. The sample was collected to make a characterization of this waste stream. While collecting the sample, the facility had a false alarm of an H2S release. No concerns were observed during the site visit.
